**Re: 2024 Neighborhood Infrastructure Improvements  
Public Outreach – January 8<sup>th</sup> to January 26<sup>th</sup>  
See Online Presentation and Reference Materials at [www.hastingsmn.gov/2024Streets](http://www.hastingsmn.gov/2024Streets)**

Dear Property Owner:

The City of Hastings is proposing to perform infrastructure improvements on your street this year (see map on reverse side of this letter). **Please visit the project web page, [www.hastingsmn.gov/2024Streets](http://www.hastingsmn.gov/2024Streets), at your earliest convenience to view a video presentation overviewing the project, complete a brief survey, and view additional project resources.** The purpose of these materials is to update you on the project being considered for 2024, and to provide an overview of the proposed assessments (out of pocket costs paid by you as the property owner).

Our **Project Feedback and Communication Preferences Survey** is available on the project webpage to gather your input and questions on the project as well as better communicate with you throughout the process. **It is preferred that you complete this survey online**, however, a paper copy has been enclosed if you would rather complete the survey by hand. If completing the survey by hand, please mail the completed copy back to the Engineering Department (1225 Progress Drive, Hastings, MN 55033) or scan/email to: [SSchmidtke@hastingsmn.gov](mailto:SSchmidtke@hastingsmn.gov). **In order to keep the project on schedule, please provide your feedback between now and January 26<sup>th</sup> so that it may be considered in the project.**

**If you have further comments/questions after viewing the website materials that you would like to discuss with our staff, please plan to attend the open house or contact the engineering department.**

**OPEN HOUSE: St. Phillips Church Thursday, January 25<sup>th</sup> from 5-7:30 PM.**

City staff will be available with draft plans to discuss the project and address any questions

**CONTACT ENGINEERING: Call 651-480-2334 if you have questions or would like to schedule a meeting**  
1-on-1 meetings available via phone, virtual (zoom), or in-person

Your questions and feedback will greatly assist us in finalizing the plans. Any comments you provide will be shared with the City Council for their information as they make the final decisions on the project in March 2024.

We look forward to meeting with you and receiving your feedback on the project.

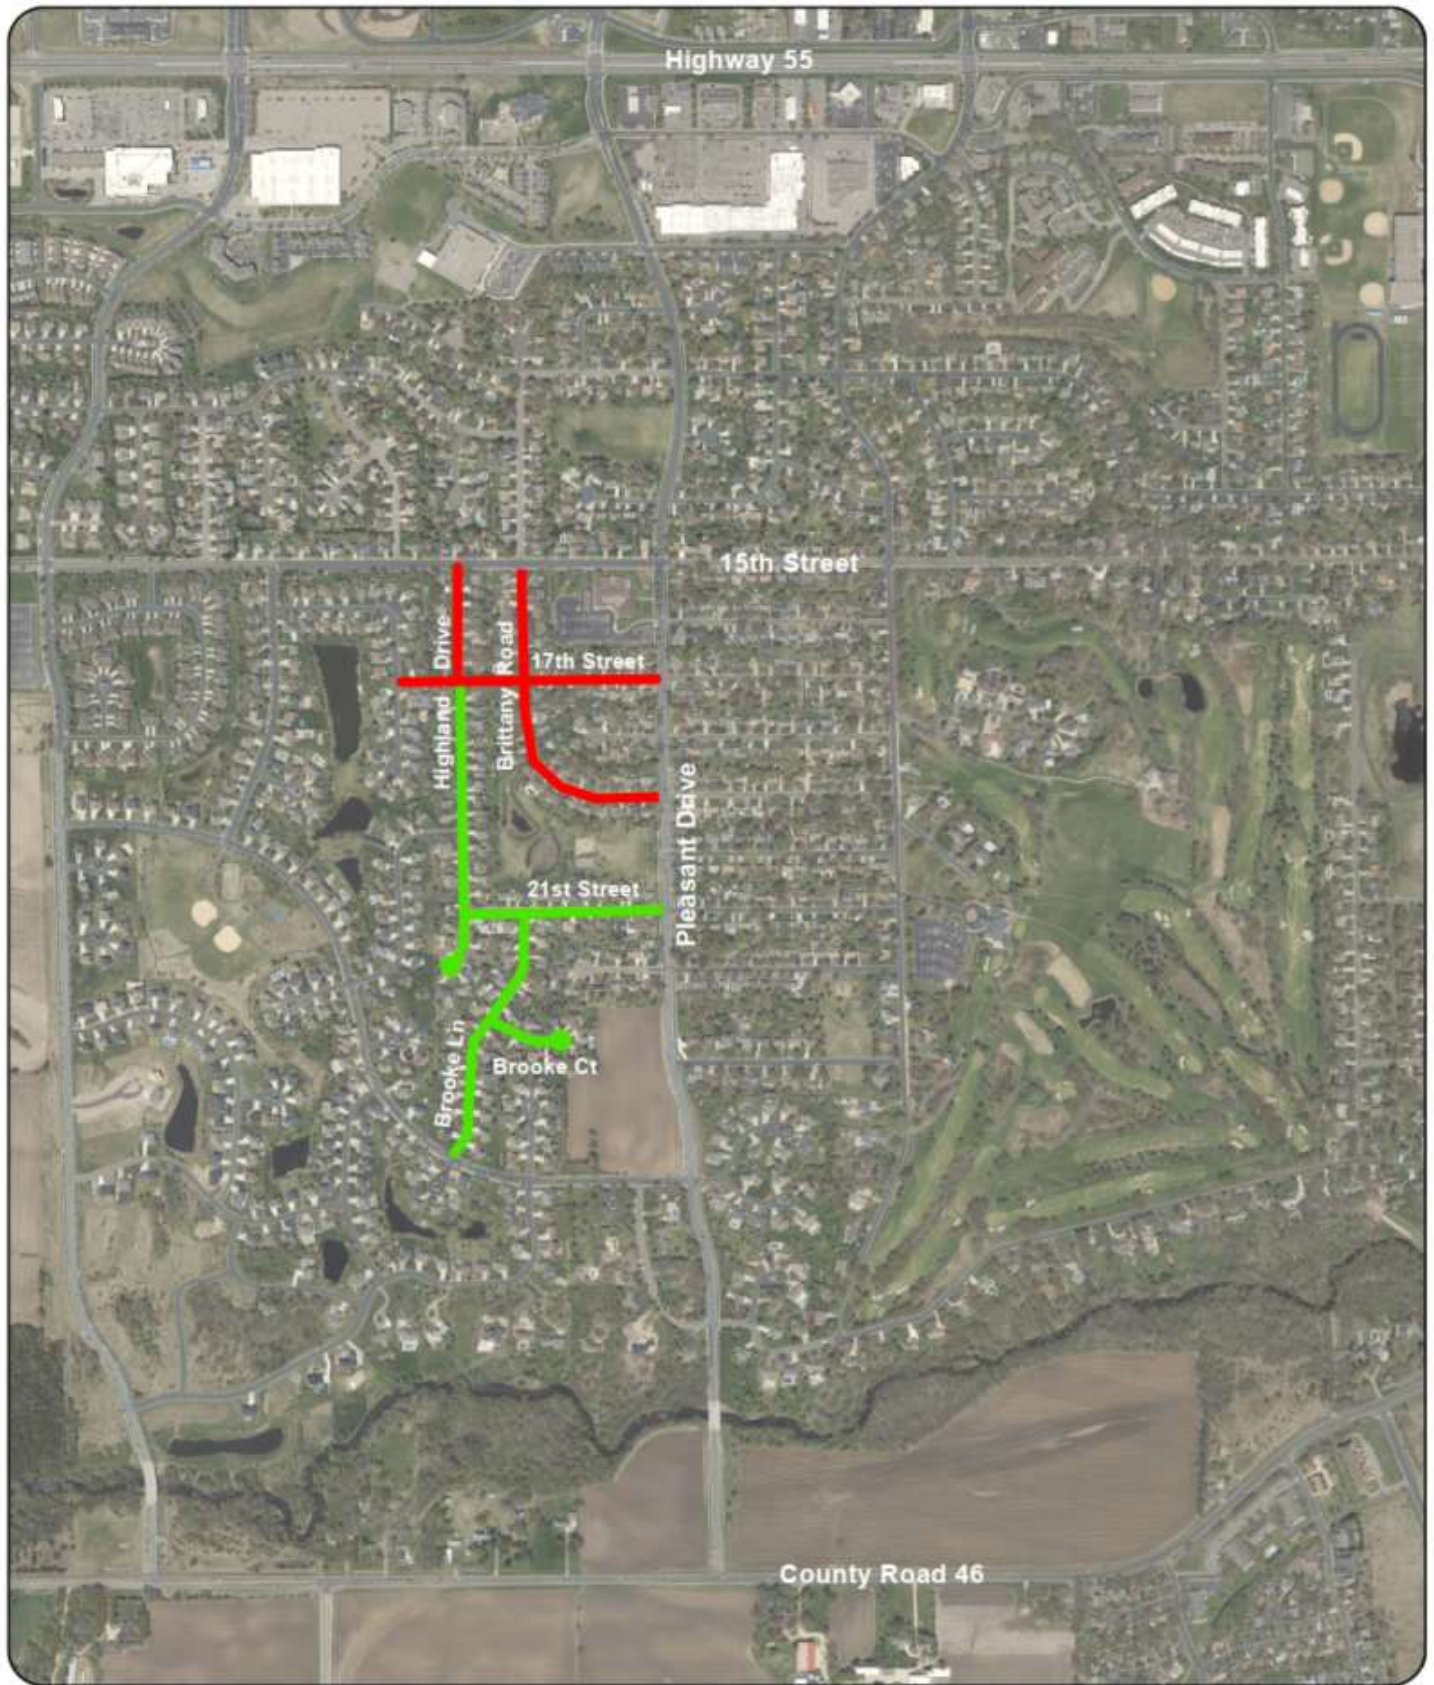

Sincerely,

Cody Mathisen, P.E.  
Principal Engineer

Cc: Mayor and City Council  
Dan Wietecha, City Administrator  
Ryan Stempski, Public Works Director/City Engineer
