

## CHAPTER 4

## CONSTRUCTION REGULATIONS

### SECTION 4.18 IRRIGATION SYSTEMS

**SUBD. 1. Permit Required.** An irrigation permit issued by the Building Department is required prior to the installation of all turf and landscaping irrigation systems. The Building Department will conduct an inspection to review the proper installation of a backflow prevention device in accordance with Minnesota Health Department standards, and the installation of a rain sensor device in accordance with Minnesota State Statute 103G.298.

**SUBD. 2. Permit Fee.** The irrigation permit fee shall be as set by resolution adopted by the City Council.

**SUBD. 3. Installation Standards.** All new and existing outdoor meter installations are required to be sheltered by a protective box that meets the standards established by the Public Works Department and adopted by the City Council. All irrigation system installations within the public right of way shall be installed as outlined in the Public Works Department irrigation installation guidelines. All property owners are solely responsible for repairing, replacing or relocating irrigation system installations as needed within the public right of way.

## CHAPTER 12

## UTILITIES

### SECTION 12.21. RULES AND REGULATIONS - WATER AND SEWER.

**SUBD. 12. RPZ Reporting Requirements.** All facilities with RPZ installations shall forward a copy of the Minnesota Department of Health required annual inspection report to the Public Works Department for review. Failure to provide the Public Works Department with a copy of the RPZ annual inspection report may result in the Disconnect of the water service.
