# Sign up for Dakota County Emergency Call List Online

Visit www.mn-dcc.org

Look for the RED MENU BAR just below the top photos, and click in the following order:

- Click on COMMUNITY NOTIFICATION, and on the next page, click REGISTER.

You'll be brought to the EMERGENCY ALERT PROGRAM page.

Under LOGIN TO YOUR ACCOUNT, look for "Don't have an account?" – and click on the words "Sign up"

From this point on, you'll have to provide several pieces of information to register.

- Create a Username – *for example – this can be your email address*
- Create a Password – *follow instructions on the page for assistance with passwords*
- Provide an Email Address

Once registered, you'll then be walked through getting a page where you are able to enter all of the ways you can be contacted, locations for where you'll receive notices (for example, work, home, school), which include options for both land line telephones and mobile phones.

Anytime an emergency call is issued by the system for a location among your registered addresses, you will receive a call with that message on all of the phone numbers you've registered.
